Dan Sheehan
Director
JIGSAW CONCEPTS
PO Box 277
Kilcoy QLD 4515

To Whom it May Concern,

Being one of the leaders in the CCTV industry it is imperative that our website, product catalogue and quoting systems are always up to date, user friendly and well maintained.

Jigsaw Concepts has managed these services for us for over 6 years now. Throughout this time we have always experienced outstanding service from Jigsaw. Whether it is a new web project, a minor product update or an emergency fix, Jigsaw always deliver great results and are very responsive.

Pacific Communications operates in a fast moving and ever changing industry and as such our ability to keep pace has been very well aided with the tools and services that Jigsaw has provided.

Jigsaw's customer service and response times have always been excellent. I would highly recommend you consider Jigsaw Concepts if you are looking to expand through the use of web technologies and customer interaction tools.

Regards,

Robert Meachem
General Manager-Pacific Communications
